## ARTESIAN WELLS IN COLORADO.

A dispatch from Denver states that within the last sixty days twenty-five artesian wells have been sunk in that city, every one of which is flowing a powerful stream of pure water. At a depth of about three hundred and twenty-five feet there appears to be an inexhaustible supply, which can be utilized to much less expense than the same amount of water could be obtained from surface streams. The discovery of a water vein within ordinary boring distance of the surface is of vastly more importance to the State at large than the discovery of a new silver lead which might serve as the basis for a new Leadville. Water is the element of nature which imparts life to all other elements. Water turns deserts into gardens and barren plains into wheat fields. There are millions of acres of desert between the California line and the ridge of the Rocky Mountains which will yet be brought into cultivation. Water, however, is essential, and if it is found so near the surface at Denver, it is reasonable to suppose that it will be found in other places.

## WEAKENING.

Judge Hoadley, of Ohio, bought sorrow and trouble. His ambition was not satisfied with a private station. He aspired to be Governor of Ohio, and from that place of eminence he did not despair of reaching the far more dignified one of President. But before the day of battle he is virtually defeated, and now it is reported that he is breaking down mentally and physically. This is to be regretted, because under ordinary conditions Judge Hoadley had many years of active work before him. He is, however, a very admirable type of his party. It is broken, confused and dispirited, and presents a striking contrast to the buoyant energy of the Republican party.

## The Danger of Knowledge.

A poor man had better not know too much in this country or he is liable to be juggled. A case of this kind occurred in Sacramento a few days ago. Fritz Goodfriend has been employed by Conrad Schapp who is charged with the crime of selling diseased meat. Goodfriend is the principal witness, and innocently informed the officers that some parties had expressed a desire to have him go to Heisen's saloon where he could learn how he could get a good position at Reno. It was decided that this indicated a plan to pay the witness to leave the city to avoid testifying, and that the ends of justice required surveillance of the witness. He was therefore ordered to give bonds or go to jail to await trial. As he could not give the bonds he went to jail; in the meantime the party accused is enjoying his liberty.

"Brick" Pomeroy's paper in Denver, Colo., is one of the most interesting publications in the world, filled each week as it is with articles wise and otherwise from "Brick's" pen, such as Parson Pomeroy's Preaching, Saturday Night Chapters, "Brick's" Letters of Correspondence, articles faithfully descriptive of Colorado enterprises and opportunities to safely and profitably invest capital, together with the usual variety of fresh miscellaneous matter. As years come upon this well known journalist he is settling down to business, giving to the public his ripening ideas and as there is no present hope for a new political party that will carry his anti-bond idea to the fore, he is working with Democrats for the displacement of the Republican party from power. A special feature of this paper during the coming campaign will be its Washington letter, which will be interesting reading for those who do not know half the excitement existing at the Nation's Capitol. Send \$2 to Pomeroy's Democrat, Denver, Colo.; in clubs \$1 75 each.

Thirty five of the applicants for Government positions who were examined last Saturday at San Francisco passed the ordeal successfully. There were only four failures. Ten of the candidates received over 90 per cent—five for the postal service and five for the customs.

The True Fissure says reclining chairs are to be put on the passenger coaches of the Carson & Colorado Railroad.

## A Harvest of Death.

News received from the Island of Java gives a startling account of the terrible calamity which swept over the island by reason of volcanic eruption and resulting tidal waves, which began last Saturday night and still continues. Details received by way of London show that there was a frightful loss of life and destruction of property. Some two thousand Chinese, living in low ground at the entrance of Batavia harbor, were drowned by rising waves, and out of 3,500 Europeans and Americans living in that city, 800 are said to be lost. At Angier, showers of rocks, and mud and lava, followed by a tidal wave, destroyed 2,000 people. Bantam was entirely covered by water, and 1,000 to 1,200 persons drowned. The island of Serang was submerged and all its inhabitants, not stating how many, perished. Several other places are said to have shared a similar fate. Nearly one-half of the forty volcanoes on the island are in eruption or threatening it, and it is feared that no section of the island will escape great loss of life and damage to property. Mountains which have not erupted since last century are now in active movement.

## Gambling License.

The Chief of Police at Sacramento has notified all concerned that he intends to rigidly enforce the gaming ordinance during the week of the fair. The ordinance imposes a license tax of \$100 per quarter or \$50 per month for "any game of faro, monte, roulette, lanquet, rouge et noir or any banking game played with cards, dice or any other device for money, checks, credit," etc. It also provides that such games must be conducted on the second floor of a building, open to the public, and that minors must be excluded. The Chief is mistaken if he thinks the license will drive any gambler away. There isn't a gambler who will not gladly pay the license, and know that his game will not be molested by the Chief and his assistants.

## Another Loper Discovered.

A case of leprosy, with the disease well advanced, has been discovered at Sacramento. A famous Chinese cook, one who for years has been engaged in cooking for hotels and restaurants, and is now employed in that capacity in a well-to-do family, near Brighton, is thus afflicted. Daily does this boss of the culinary department in a white family call on a well known Chinese physician on I street for treatment. The principal part affected in this case is the hand, and already has the unfortunate Celestial lost the greater portion of one of his fingers, and is now in the active process of decay, or rotting off, peculiar to this disease. The Chinese doctor says this is a case of leprosy, and so does the afflicted Chinaman himself.

## Public Land Matters.

Inspector C. W. Holcomb of the General Land Office, has returned to Washington from a five months trip of inspection of offices in Colorado, Wyoming, Utah, Nevada, Oregon, Washington Territory, Montana, Dakota and Minnesota. He reports the offices generally in good condition, well managed, and doing a large business. The increase of business in the Land Offices of Washington Territory and Oregon is reported very great and large tracts in that section are being taken by land entry.

## A Simple Offering.

A San Francisco paper says a poor washerwoman, near the Pavilion, who could not afford to decorate on the day of parade, determined, with woman's ingenuity, to do honor to the occasion at all risks. She propped her clothesline up into the perspective, displaying a white petticoat, upon which red, black and yellow stockings were pinned in the form of a Maltese cross. This simple offering affected many of the sturdy Knights to tears, and with knightly gallantry the entire line saluted these tokens of the real power that rules the world.

## A Pleasant Reflection.

It is a subject of congratulation that notwithstanding the thousands of people who crowded into San Francisco last week, there were no fatal accidents connected with the parades or excursions, or upon railroads or by water. There were no fires or catastrophes of any kind to mar the pleasure of the week. The exemption from serious casualties, was remarkable, considering the large movement of people on the routes of travel.

## Entering His Rights.

C. A. Hughes, a colored man, has commenced suit in the United States Circuit Court in San Francisco against R. B. Swain to recover \$500 damages. For cause of action he alleges in his complaint that on the evening of the 6th instant he entered the defendant's restaurant at No. 213 Sutter street, accompanied by two lady friends, also colored, and asked to be served as per order from the bill of fare. The waiters refused to execute his orders on the ground, as they stated, that they were not permitted to serve colored people in that restaurant. He then left the premises with his companions. The action is brought under section 2 of the civil rights act, which makes it a misdemeanor for refusing to serve a person on account of race, color or previous condition of servitude, and the penalty therefor is \$500 fine.

## The Pope in America.

A Gentleman at Washington, who takes great interest in matters clerical, says that it was not only his opinion, but that it is the intention of the Church of Rome to try and make a great spread in the future in the United States. It is regarded as a certainty, by the people mentioned, that the object of the visit of Monsignor Capel to this country, and the calling of leading American Catholic leaders to Rome, is but to precede the appearance in this country of the Pope himself. How true this impression may be time will show.

## Indian Matters.

Senators Logan, Dawes and Cameron of the Special Indian Committee have reached Sioux City for a tour of inspection of the Missouri River Indian Agencies. They go hence to the Pine Ridge and Rosebud agencies. The Senators are not prepared to say what the committee will recommend, but express the opinion that the Sioux are ready for lands in severalty. Other members of the committee are prosecuting their investigations in Montana.

## Admitted to Bail.

J. J. Robbins, who was arrested on the 18th inst. for an alleged assault on an eleven-year-old girl in Modesto and who was taken to Stockton to escape a mob, gave bonds at Modesto for \$500 and was released on a telegraphic order from the Sheriff of Stanislaus county. Public sentiment has changed in Robbins' favor. Robbins was an attorney in the Ralston estate. It is reported that his bondsmen are the same who surrendered the defendant.

## Valuable Information.

Despatches from Philadelphia say the Keeley Motor has at last been completed; that a trial was made in the presence of stockholders and invited guests, but not a word to indicate whether the motor was a success or a failure. Had the trial been much of a success the world would probably been at once notified of the fact.

## Deserve Censure.

Seven years have elapsed since James Lick, the California millionaire, at his death left a vast amount of property for public uses, and not a dollar has reached the designated objects. The trustees, who receive \$1,000 a year each have just been censured by the California Pioneers.

Some of the Shoshone braves are excited over the report of the hanging of an Indian at the Duck Valley reservation recently, and have sent for Chief Natchez to come up and investigate the matter.

## A Strange Coincidence.

A strange incident occurred at Kingston, Tenn., a few days since. Judge Rogers convened Circuit Court and in his hurry to impel the grand jury selected thirteen men from the number in the courtroom. The law requires a small child to draw the names from a box and when Judge Rogers' mode was discovered Thursday the entire business of the grand jury was set aside and a new panel was ordered. When the names were drawn from a lot of two hundred they were precisely the same as had been chosen by the Judge when court first convened. It is a remarkable coincidence.

Many bodily ills result from habitual constipation, and a fine constitution may be broken and ruined by simple neglect. There is no medicine equal to Ayer's Pills to correct the evil, and restore the organs to natural, healthy, and regular action.

The most healthy and popular drink of the season is the ice cold soda water sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

## Good for Villard but not for the Country.

Villard's party of Northern Pacific guest will number 336 persons, many of them in public life in England, Germany and Holland, and all men of wealth and influence. The San Francisco Chronicle thinks the plan in bringing them out is to induce these foreign capitalists to give the road financial aid and, perhaps, also to secure purchasers for the large tracts included in the generous land grant of the railroad. The holding of stock in a road like this by foreign capitalists is legitimate, but it is not for the best interests of the country that aliens should purchase our lands by the square mile. These men have no purpose of becoming citizens of this country; they have no sympathy with our laws or form of Government; they will finally form a class closely resembling the great landlords of Ireland—men who draw a fine revenue from estates which they never visit from one year's end to another. Such ownership of land means death to the small farmer and the building up of the tenantry system.

## A Society Event.

Baltimore society circles are agitated over the announcement received from New York of the betrothal of Miss Rebecca Williams, daughter of Hon. George H. Williams, President of the Maryland Senate, to Hon. Henry A. Herbert Mr. Herbert is the owner of a magnificent estate at Muckross, on which are located the Lakes of Killarney and the famous Muckross Abbey. Mr. Herbert comes from an illustrious Irish family, his ancestry dating back to the time of Henry V, who knighted Henry A. Herbert. Mr. Herbert is middle aged and handsome. Miss Williams has been a reigning belle, is beautiful, accomplished and worth in her own right \$500,000 besides being heiress to her father's vast estate. The betrothal took place at Newport, where all the persons named are Summering.

## A Speculator Jugged.

At New Haven, Connecticut, last Thursday, one Isaac H. Lockwood was convicted and sentenced to the State Prison for one year for using the United States mails for purpose of defrauding those who wrote him, by claiming that he would lend the money left by a deceased banker, to the amount of \$780,000 to defaulters or those who had stolen money. It was the intention of Lockwood to obtain \$100,000 and go to Washington at the coming session of Congress and go into the business of hiring diamonds to ladies at 10 per cent. of their value, so they could give parties and receptions without the expense of buying the necessary jewelry.

## A Bad Move.

Major Dennis has lessened his chances for Congressional honors by starting the report that all of the compliments bestowed upon the Nevada Knight's Templar were not intended for the sagebrushers, but for the delegation from Nevada county, California.

"Who held the Pass of Thermopylae against the Persian host?" demanded the teacher. And the editor's boy at the foot of the class spoke up and said: "Father, I reckon; he holds an annual on every road in the State that runs a passenger train."

## SLIGHT ODDS.

A Little Story With a Large Moral—One Man Who Knew his own Business.

"No, my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No, my dear, we haven't any red flannel, but we have some first rate New Orleans molasses." "I think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPICINE PLASTER?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as soon as it touches the skin."

"Not at present," replied the druggist, gently. "But, we have lots of plasters just as good as Benson's, the Capicine and others—won't one of them do as well?"

"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against these articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that sometime ago, for another disease, of which the Capicine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the meaning of the proprietor of some of them being that they make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me different. I'll go to the next man in your line. Good day."

Be on your guard against imitations. The genuine has the word CAPICINE cut cleanly in the middle of the plaster. All others are impositions.
